 - **Exclusive Paystation font imprinted on the cheques as they are issued**

The Paystation CPA006 software application is easily added to your existing Windows® based accounting package to help businesses generate secure and CPA 006 compliant cheques using pre-printed cheque stock.

Customizable Configuration

Not all pre-printed cheque stock is created equally. A number of your cheque's elements can still be customized from your Date format choice to whether you included your corporate logo on the cheque face. Paystation's CPA006 is flexible enough that you can match your cheque elements to your pre-printed cheques. Depending on your cheque layout, you can suppress elements such as:

- Date Word
- Date Indicators (YYYYMMDD)
- \$ symbol
- Pay To The Order Of
- Cheque Number (word)
- Cheque Number
- Signature line is optional
- CPA006 compliance rules to finish off non-compliant cheque stock

CPA Standards and Compliance

The Paystation CPA006 offers you the flexibility of tailoring your cheque elements to your pre-printed cheque stock while ensuring you are issuing a CPA compliant cheque. Consider these benefits:

- The ability to choose your cheque placement to match your stock – top, middle or bottom; or 8 ½ inch- wide continuous forms
- The option to move data elements around layout of the cheque but within the CPA boundaries if you choose to 'force' compliance
- Have the software automatically:
 - Truncate payee name/payee address to conform to CPA standards and postal requirements
 - Suppress or truncate anything that invades the 5/8" MICR band
 - Ensure the areas of interest (according to CPA Standards) are not invaded or compromised

Issuing Secure Cheques

The Paystation CPA006 is rich with security features for your added peace of mind and assurance:

- Proprietary image that details the amount plus the Payee in the exclusive Paystation font deter alternation attempts
- Stringent Password and User protocols to help prevent any unauthorized issuance of cheques

Working with Canadian banks, businesses and various law enforcement agencies to help prevent and investigate cheque fraud since 1955, Paystation offers a comprehensive product line designed to safeguard companies' information and financial assets. With the ever-increasing sophistication and evolving forms of fraud, identity theft and corporate risk on the rise, Paystation continues as the trusted leader with our complete line of security products for businesses, governments and financial institutions.
