CPE+ Teller
Computer Payments Enterprise Plus Teller

Next Generation Teller Application

CPE+ Teller allows bank drafts, money orders and foreign draft payments to be created, authorized and printed in just a couple of minutes. A software that allows authorized users to print detailed personal information on all documents using pre-set fields to make the whole process very simple. CPE+ Teller can also validate drafts presented for payment across your branch network.

With an easy-to-use menu, the teller can quickly create a full range of documents including:

- Bank Drafts
- Money Orders
- Domestic Drafts/Foreign Drafts
- Personal and Business Cheque Books
- Deposit Book/Slips
- Receipts and Copies
- Starter Cheques
